

Here's Where We Belong

Susan Beckett~Laurie Haag~Kathryn Goddard

The world a hundred years ago looked different than today
Without the choices we have now, with no vote or say
But Juliette had a vision for girls the world wide
And from her gentle guidance we now stand side by side

Chorus:
Here's where we belong
Where we laugh
Where we sing our song
Our hearts here will remain
Until the day we all come back this way again

We camp, we hike, we work, we play, we set our spirits free
A tapestry of strength we weave in perfect harmony
A world of opportunity awaits at every turn
So open up your heart my friend there's still so much to learn

Chorus:
Here's where we belong
Where we laugh
Where we sing our song
Our hearts here will remain
Until the day we all come back this way again

Our hearts here will remain
Until the day we all come back this way again
